Students in Concert Band have an obligation to themselves and their fellow band members to practice at home and share what they have learned.
- Course Objectives: With the national and state music education standards in mind, students in U-Prep music classes will have solo and ensemble performance opportunities. In preparation for these performances, students will focus on proper sound production techniques, sight reading, music theory, music history, and musical creativity.
- Online Component: Whether a student is participating in-class daily or online as part of our distance learning program, all students will be integrating via Google Classroom. As an ensemble class, it is important for students to continue to be inclusive regardless of physical location. Online communication will be essential to overall success.
- Grading Criteria: Practice (in-class and at home): 75%  
Assignments/Tests/Performances: 25%
- Performances: Since performances with live audiences are restricted until Shasta County enters the next phase, we will need to revisit these expectations once they become applicable.
